MESSAGE

There are over 37 million blind people in the world; one-tenth of these are in India. It is a fact that eyesight can be restored to many of these people by providing them access to basic treatment. Donating eye can restore vision to at least some of these people. While congratulating the Aditya Jyot Eye Hospital for actively promoting eye donation, I call upon the people to pledge their support for the eye donation campaign.

My best wishes to 'Aditya Jyot' and Dr. Natarajan for the success of their campaign being run as part of the 21st National Eye Donation Fortnight.

(S.M.Krishna)
